SUMMARY

I am a proactive, competent web developer who is passionate about continuous learning and personal development. I bring a great ability to adjust to new technologies and methodologies, with a focus on WordPress development. I work well both individually and in groups, using my strong communication and teamwork abilities to accomplish project objectives. I constantly provide original ideas because I approach problem-solving creatively and with a strategic attitude.

WORK EXPERIENCES

OPERATIONS OFFICER

2017 - 2019

Aces Data System

- Managed administrative, finance, and HR operations, ensuring all tasks were completed within budget and deadlines.
- Conducted operational audits, budget allocation, and expense control to increase efficiency.
- Supervised training development, performance evaluations, and resource allocation to boost employee productivity.
- Regular staff meetings were facilitated to discuss issues, updates, and ideas for improving operations.
- Handled customer concerns in a timely manner, guaranteeing precise remedies and client satisfaction.

WORK EXPERIENCES

FRONTEND JUNIOR DEVELOPER

2019 – 2020

Dexwin Enterprise

- Developed user-friendly websites with React, HTML, and CSS
- Optimized web applications for speed and ensured mobile responsiveness.
- Collaborated with designers and back-end developers to produce high-caliber prototypes and enhance website usability.
- Built functional requirement documents and helped back-end developers with coding support and troubleshooting.
- Incorporated the most recent developments in technology while maintaining consistency in brand appearance.

WEB DEVELOPER – REMOTE

2020 – 2024

Inkgate Global

- Designed and developed websites for NGOs, businesses, and companies using WordPress.
- Integrated payment systems and email listing features to enhance user engagement and functionality.
- Provided specialized, user-centered solutions that were adapted to the particular needs of the clients.
- Worked together with stakeholders to make sure websites matched branding and business objectives.

HEAD OF TECHNICAL SUPPORT

2021 – 2024

Autosurveil GPS

- Successfully diagnosed and resolved software, hardware, and network issues.
- Installed, configured, and maintained software and hardware systems.
- Provided timely client support, guaranteeing clear communication and resolution of issues.
- Documented procedures, tested new technologies, and ensured compliance with safety standards.
- Managed multiple cases simultaneously while maintaining a high excellent standard of service.

WORK EXPERIENCES

WEB DEVELOPER – REMOTE

2022 – 2024

Tirah

- Using WordPress and Elementor, I created and launched a range of websites, including eCommerce platforms, business websites, and apartment listing websites.
- Integrated APIs, such as Typeform, to enhance user interactions and collect data efficiently.
- Worked closely with design teams to preserve design integrity while converting Figma ideas into pixel-perfect WordPress implementations.
- Implemented and configured payment gateways for seamless eCommerce functionality.
- Provided ongoing maintenance and support, ensuring website uptime and performance optimization.
- Managed hosting accounts, DNS settings, and professional email setups in addition to performing routine backups and restoring websites during outages.

WEB DEVELOPER – REMOTE

2021 – 2024

Themewire

- Created websites from the ground up using exact Figma designs, guaranteeing pixel-perfect precision to satisfy customer demands.
- Developed custom post types and unique features tailored to specific client requirements beyond WordPress's default capabilities.
- Maintained websites to guarantee optimal efficiency, resolving problems and applying updates as required.
- To reduce downtime, frequent backups were made and websites were restored as needed.
- Collaborated with clients and teams to ensure consistent delivery of high-quality projects aligned with business goals.

WEB DEVELOPER – REMOTE

2017 – Present

Freelancing

- Worked extensively with clients to transform their concepts into websites that are both aesthetically pleasing and fully functioning.
- In order to guarantee optimum performance and dependability, I offered continuous website maintenance, which included frequent backups and restoration services as needed.
- Trained clients on content updates and product management for their eCommerce stores, empowering them to maintain their websites independently.
